

Single output thermostat

Main Features

- Wall controller with programmable differential
- Refrigerating or heating mode control selection
- Load start limitation
- Safety function in the event of breakage of the sensor
- Runs on mains power supply.

Applications

Control of small cold stores, temperature baths and ovens, heating systems, airconditioned rooms.

Technical Data

Range:	-50 ÷ 150°C
Resolution:	1°
Accuracy:	±0.7° (-30 ÷ 110°C)
Sensor type:	PTC; standard mod. ST1K20P1
Power supply:	230Vac ±10%; 50/60Hz; 2W
Front protection:	IP40
Ambient temperature:	-10 ÷ 50°C
